These projects revolves around the **Lace Ribbon Border Punch #122362**, definitely one of my favorites! And boy did I have fun playing with this jewel! This punch is a **MUST HAVE** for any stamper or scrapbooker – just look at the versatility!

Here's the Lace Ribbon Border Punch tucked behind the black layer as a small border. You can also use the **3/4" Circle Punch** to punch out the little center flower to embellish your cards or scrapbook pages. A Rhinestone Brad in the middle is the perfect touch.

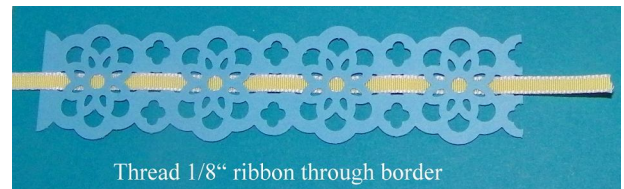

Here's a sample with the flowers layered over a white border – use the **3/4" Circle Punch**.

The **1" Circle Punch** is the perfect size to layer behind the border for a splash of color.

Our **1/8" Taffeta Ribbon** is the perfect size to thread through the border.

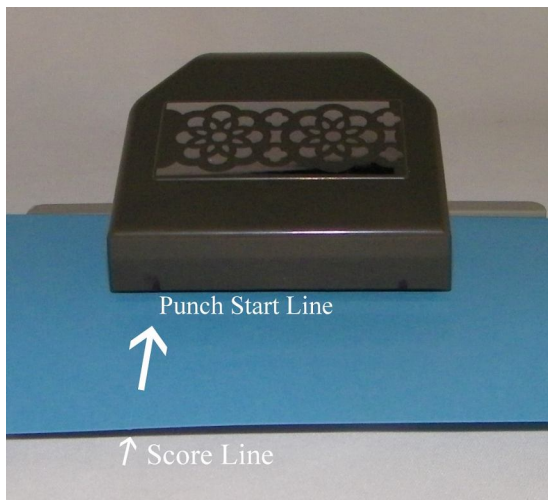

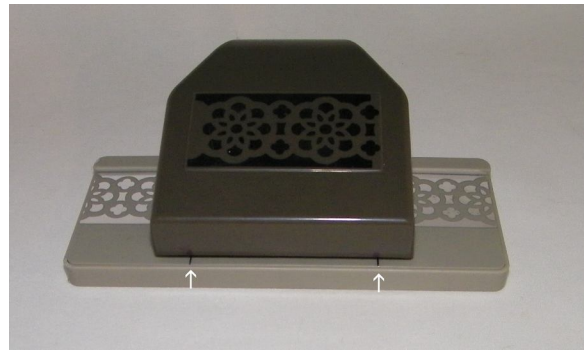

And how about this???

- Cut your cardstock 4-1/4" x 11" and score at 5-1/2"
- Insert your cardstock with the score line at the start line of the punch as shown below
- Punch twice making four flowers
- Turn your cardstock over and punch the same way on the other side

Tip: I used a Sharpie Marker to mark the start lines on the front part of my punch so they were visible when I put this card in the punch.

Notice the marks highlighted with the arrows – this is the place where you slide your cardstock into the punch and start punching at the score line.

Here's the result.

Stamps:

Fabulous Florets (pg 107)
